But my favorite part was, of course, seeing Diana's dresses, which I admired as much as a little girl. It offers good-value rooms. Experience date: February 2019Taxidevil wrote July 2018 review Glasgow, UNITED Kingdom 2,974 contributions 865 useful voices This exhibition is included with a visit to Kensington Palace. There are three small rooms of some of the most iconic dresses worn by Princess Diana, as well as some design designs. Dresses are very beautiful, but Diana take them to another level. I think it can be difficult for a younger generation to understand what impact Diana had on fashion. After seeing the dresses, you can visit the rest of Kensington Palace.... The choice of dresses was very sensitive. It was interesting to see Lady Dee's development in fashion. And of course it was good to see that she is a woman with curves, with a beautiful body and dress helped to show the surprise or breast field if you don't want to buy it, and yes, you can get 2 or more of the same item out of the box, if its elements of the avatar of 100 if you want to earn as much money as possible. The higher your rating, the more customers you get, which means more shopping. To do this, keep racks and tables full if your low stock level blocks your door with anything, it's like your store is closed so you have time to top up and your rating doesn't go down. If your customers are left dissatisfied with a broken heart over their heads, it could mean they couldn't find a mirror or dressing rooms and mirrors, mirrors side by side such as shoes, handbags and jewellery, they should not always be standing mirror wall mirrors will be used, but make sure they are not blocked in anything. So be sure to keep your rating by keeping customers happy so you can make more money. More alignment advice many of us are at level 99 and can't wait for 100, but think it will take forever. Well, I learned some great tips. Hannah Mriva and Ani have been finding wavs to align everything. about these XPs, so if you're not saving coins and are more concerned about getting to a certain level, these are some great ways. Alignment with décor, buy, buy! Use these coins many items have very high XPs here some well they found that a member of the community aligned guickly by buying Goblin and tea dressing room, and the usual black cheap windows and thin empty tables, thanks to Ani I learned that 550 XPs, and empty 200XP tables, if you want to sell them back, you won't get all the money back, but it's about aligning up. Spend these coins to buy items, that's how I leveled so guickly I bought every coin item I can, and the higher xp, the more you have to buy. Alignment can also be done with clothes it's a few items and strategies they kindly shared with me. I also have a great link to help you level up with clothes this strategy site, it's amazing For those who have some time to order 5 hot fold items over boots from the Cool and Cozy collection offering 62 XPs per hour. If you really have time on your hands ordering Star Dress from the Spring Cill collection offers 20 XPs, and since it's only an hour to make, you order to tell 10 that it's 200 XPs right there. Another item from this collection of Retro Sunglasses can also help with 20 XPs as well. All business collections luxe bag, pencil skirt and bow heels only take 30 seconds and 2 XPs and hour, so if you order say 20 of each, it's 120 XPs an hour, so if you order say 20 of each, it's 120 XPs an hour, so if you order say 20 of each, it's 120 XPs and hour, so if you order say 20 of each, it's 120 XPs an hour, so if you order say 20 of each, it's 120 XPs an hour, so if you order say 20 of each, it's 120 XPs an hour, so if you order say 20 of each, it's 120 XPs and hour, so if you order say 20 XPs and h move up. But this is only an alignment strategy. Try to see and pay attention to clothes that earn you more XPs in an hour rather than in general. That's what Hannasdrem told me and she's the only player I know who is on the LVL 100 except for the girl who just reached it by buying Goblins and Tea Cup dressing rooms.
